

Since 2003, Project Lifesaver has been a vital part of the daily operations of the Hanover County Sheriff's Office. In fact, the Hanover County Sheriff's Office became the first agency in the state to join Project Lifesaver International. This program offers the ability for the Sheriff's Office to locate loved ones and family members who wander due to cognitive disorders such as Alzheimer's disease, Autism and Down Syndrome.

This is a free service that is offered to our community. The Sheriff's Office will outfit a client with a watch-sized transmitter. This transmitter enables the client to be tracked should the individual wander. The Sheriff's Office also will replace the battery in the transmitter when it gets close to the end of its lifecycle. The Hanover Sheriff's Office understands locating lost individuals in these populations are paramount and are pleased that they're able to make this service available to the citizens of Hanover County.
